

Duță Flavia

SUMMARY

I'm a recent graduate with a Master's degree in Software Engineering from the University of Bucharest and currently work as a Data Analyst. I have a strong foundation in programming, data analysis, and UI/UX design, and I'm passionate about creating user-centered solutions while constantly growing my technical skills. My strong communication abilities help me collaborate effectively with a wide range of people. I am now seeking new opportunities where I can apply my experience, continue learning, and contribute to meaningful, impact-driven work.

EDUCATION

2023 - 2025	Master's Degree in Informatics, Software Engineering, University of Bucharest
2020 - 2023	Bachelor's Degree in Mathematics, University of Bucharest
2020	Bacalaureat, National College "Dimitrie Cantemir" from Onești, Bacău county, Romania

WORK EXPERIENCE

1. January 2024 - Present: Data Analyst at MarketVector, Bucharest

I am currently working at a company focused on retail data, where I contribute to projects such as price monitoring and Key Account Data (KAD) reporting. My work involves extracting, processing, and analyzing data to provide insights on market share, trends, and distribution. I primarily use Excel and Power BI to build reports based on two main data streams: FMCG retail data from stores like Kaufland, Mega Image, and Metro and beauty-focused data from retailers such as Sephora, Notino, and Douglas. These analyses help enterprise clients track performance, competition, and pricing strategies.

2. September 2023 - November 2023: Math teacher at Centrul de meditații și dezvoltare personală, Bucharest

I worked part-time at a tutoring center, where I taught math every weekend to students in grades 6, 7, 8, and 11. This experience allowed me to work closely with pupils, each with their own learning styles and needs. I focused on making math accessible and engaging by approaching the curriculum with patience and creativity.

3. November 2022 - May 2023: Pedagogical Practice at the Secondary School "Titu Maiorescu", Bucharest

I completed my pedagogical practice at "Titu Maiorescu" Secondary School, where I assisted in math classes for grades 5 through 8. During each class, I documented my observations and contributed to various activities such as grading, preparing materials, and teaching lessons. At the end of the practice, I wrote a case study that analyzed a unique teaching situation and how it was effectively addressed.

4. July 2022 - August 2022: Summer internship at Deloitte Digital, Bucharest

During my internship, I had the opportunity to deepen my understanding of key computer science concepts, tools, and techniques. The four-week program began with two weeks of theoretical and interactive workshops, where I learned about the technologies used within the company. In the final two weeks, I collaborated on a team project that served as an evaluation of our practical skills. I focused on the front-end development, contributing to tasks of varying complexity and standing out through my problem-solving skills. The project was built using the React framework with JavaScript and CSS for styling.

CERTIFICATIONS

- Fundamentals of Digital Marketing Google
- ECDL Certificate
- Cisco Certificate
- Certificate in Informatics for designing a Database
- Certificate in English for a project about Applied Mathematics

SKILLS

The programming languages, frameworks, and Tools that I worked with are:

- | | |
|--|--|
| • React: intermediate level knowledge | • Figma: intermediate level knowledge |
| • JavaScript: intermediate level knowledge | • Python: intermediate level knowledge |
| • TypeScript: intermediate level knowledge | • GitHub: intermediate level knowledge |
| • SpringBoot: intermediate level knowledge | • CSS: skillful |
| • Java: intermediate level knowledge | • HTML: skillful |
| • SQL: skilful | • jQuery: beginner |
| • PL/SQL: skilful | • Bootstrap: beginner |
| • MongoDB: intermediate level knowledge | • Tailwind: beginner |

KEY QUALIFICATIONS

- | | |
|-----------------------------------|-------------------------------------|
| • Analytical and Flexible Thinker | • Effective Communication |
| • Team Collaboration | • Dynamism and Responsibility |
| • Organized and Efficient | • Commitment to Professional Growth |

LANGUAGES

- Romanian: native.
- English: fluent.
- French: beginner.
